LIBERAL PARTY WINS RECORD VICTORY AT POLLS

Social Credit Again Sweeps Alberta; Pelletier Has Large Majority Peace River Riding

EDMONTON, Oct. 16.—Social Credit on Monday elected 15 of its candidates members of parliament, while the Conservatives were divided between the Liberals and Conservatives.

Premier Bennett retains his West Calgary seat, while J. A. MacKinnon.

In the Peace River Riding, Irene A. Pelletier was elected with a record-breaking overwhelming majority, which will probably be added to when returns come in from the 23 outlying polls yet to be counted.

The vote by polls follows:

	Borden	Morin	Kennedy	Pelletier
Hendrie	0	2	1	20
Smith	4	3	1	13
Moose River	0	5	0	15
Spurfield	3	3	5	0
Slave Lake	0	4	2	20
Wetaskiwin	8	32	11	91
Kinuso	0	1	3	13
Swan River	1	59	0	45

Light Vote Cast At Grande Prairie Poll On Monday

There was a light vote cast at the Grande Prairie poll. Out of the total of 800, 650 found their way to the poll. Twenty of these votes were spoilt.

In the provincial election over 800 votes were cast. The following is the result:

McLean, J. P.	269
Pelletier, H. A.	190
Bergine, E. V.	120
Kennedy, D. M.	40

Many New Homes Being Built In Railway Centre

McLENNAN, Oct. 17.—Culminating an extensive home building program new homes are in varying stages of completion and some have recently been completed in this rapidly growing railway divisional centre, representing a sum of over \$21,000.

The latest addition is a modern residential section with the addition of three of these homes, the six-room home of Mr. Robert Coulman having just been completed at a cost of \$3,000. A similar sum was expended on the new home of Mr. Ronald Jones, and another \$3,000 has been spent on Mr. McArthur's new seven-room bungalow, which will also be valued at \$3,000 when completed.

It is estimated that they are planning to build along the shore of Lake Kinuso, known as Round Lake, in the near future.

Mr. R. R. Violet is excavating for his new \$3,000 home on Third Avenue North (Peace River Highway); and the new home of Mr. and Mrs. J. A. Charcheneau, valued at \$3,000, is practically completed.

Three homes have just been completed by Mr. G. L. LaPleur, representing a sum of \$1,200. Mr. Adriel's three-room bungalow, built on a hillside, cost him \$1,500. Painting has just been finished on the \$3,500 home of Mr. A. E. Gregory, which is fully plastered and finished with all modern appointments.

The eight new homes are extensive additions to the already growing community in which 17 modern residences were built last year, and 11 the year previous.

Commission On Pensions Sit At Grande Prairie

A quorum of the Canadian Pension Commission is sitting in the courthouse at Grande Prairie holding hearings on pension applications before the boards of assessment. The quorum includes Major C. D. Crowe, Dr. S. G. MacKenzie, advocate for Mr. Pirie, secretary of the Sports of Edmonton in the pensions division.

Some 30 cases are being considered.

Mr. Pirie, who is sitting at the sitting of the visitors in the town of Peace River which was held last week.

All sittings are open to the public.

The commission will leave for Winnipeg on Friday night train.

MADE LONG TRIP TO VOTE

Mr. and Mrs. J. E. Thompson, after tracking mud practically all the way from their home in Vermilion to Grande Prairie about fifteen minutes before the poll closed on Monday. "It was a tight squeeze," observed Mr. Thompson, "but we made it after being on the road for nearly five days from Edmonton."

Mr. Thompson stated that there were all kinds of cars mired along the highway, which was almost impassable.

The Thompsons, who went as far as Cochrane, where they visited their daughter, Mary, returned via the Sturgeon Lake cut-off.

Most of Wheat In Peace River Will Grade 4 and 5

Says J. Pike, Inspector Under the Board of Grain Commissioners; North Country Now Represented on Standards Committee.

That he had visited every elevator in the Peace River, including the Block, with the exception of three, was stated yesterday by J. Pike, Tribune reporter by J. Pike, Inspector under the Board of Grain Commissioners, who was a guest and visitor at Grande Prairie, registered at the Grande Prairie Hotel.

Mr. Pike, who has been in the Peace River for some time collecting samples for the Board of Grain Commissioners, said he had been engaged in the standards committee representing the standards committee for the present crop, except that the standards committee in question was due to bad roads and owing to the fact that there was no wheat marketed until after harvesting.

In discussing his trip here further, Mr. Pike stated that he took samples from every point and shipped them by rail to the standards committee which will be sent on to Winnipeg.

R. H. McDonald of Fairview will be the farmers' representative on the standards committee representing the Peace River.

When the Board of Grain Commissioners met in Grande Prairie last Saturday, Mr. Pike advised that it was indicated that the north would be represented on the standards committee.

This promise has been fulfilled.

Asked how he found the quality of grain at the various points covered on his trip, Mr. Pike replied that the samples he had taken showed that he graded No. 2 Northern, and that was Dawson Creek. He found a few samples of No. 3 Northern, but the average grade throughout the north country will be 4 and 5.

Owing to the lateness of the season, he found that the quality of the grain in the Peace River area was not as good as he expected, and that resulted in a certain percentage of the kernels being immature.

Checking Up On Game and Fur Conditions

J. H. Clark, game commissioner for the province of Alberta, was a passenger on Tuesday's train, en route to Hythe and other points.

Mr. Clark stated to the Tribune reporter, in answer to a question with regard to the possibility of establishing a game and fur commission in the province, as advocated by the Tribune and trappers of this area, that he had nothing to say except that he had suggested to the government that a commission which are being considered.

In reply to a query as to the purpose of his visit, he said that he was sent to the Peace River area to check up on trapping suggestions and also the general game and fur conditions.

Britain Requests France To Definitely Say "Yes or No"

London, Oct. 17.—Britain has requested France to say definitely yes or no—whether in event of an Italian attack on the British Fleet in the Mediterranean, France will give assistance. Premier Laval promised to say in a day or two.

From Italy Britain has asked the League of Nations to take one of the threatening attitude adopted toward Britain by the inspired Italian press; (2) Termination of pressure on France to withdraw from the Mediterranean, which will be interpreted as increased Italian forces in Libya.

Reduction of British naval strength in the Mediterranean, the British demand can be met by a change in the political temperature and definite removal of the existing danger.

Expressed British doubts as to French support, despite previous assurances by Premier Laval in this connection, and the French government's desire to advise maintenance of a collective defense with London, lest France and Britain aid in any future European difficulties.

TOULON, France, Oct. 17.—Seven warships left the navy yard for an unknown destination Wednesday.

PARIS, Oct. 16.—After the League of Nations has acted upon Great Britain's proposal that "Buy Nothing From Italy" be adopted as a world-wide embargo against Italy, Britain will officially disclose today a plan to ask the United States whether it would support a world-wide embargo against Italian aggression.

British should not be asked to bear all the responsibility, as the League of Nations resolution involving financial blockade of Italy was considered in great part to be aimed at Britain, and to estimate the drain on Italy's gold reserves as credit facilities for exports and imports have been suspended, said John G. Macfie, president of the London banks with the application of financial sanctions, Italy will have to pay gold for imports, but it will be a heavy load, as there is no room for human life, the furtherance of social justice and promotion of the common good.

TOULON, France, Oct. 17.—Seven warships left the navy yard for an unknown destination Wednesday.

PARIS, Oct. 16.—After the League of Nations has acted upon Great Britain's proposal that "Buy Nothing From Italy" be adopted as a world-wide embargo against Italy, Britain will officially disclose today a plan to ask the United States whether it would support a world-wide embargo against Italian aggression.

Premier Laval reported Mussolini's powers will seek to learn if the United States would support a world-wide embargo against Italy.

TOULON, France, Oct. 17.—After the League of Nations has acted upon Great Britain's proposal that "Buy Nothing From Italy" be adopted as a world-wide embargo against Italy, Britain will officially disclose today a plan to ask the United States whether it would support a world-wide embargo against Italian aggression.

Expressed British doubts as to French support, despite previous assurances by Premier Laval in this connection, and the French government's desire to advise maintenance of a collective defense with London, lest France and Britain aid in any future European difficulties.

TOULON, France, Oct. 17.—An authority disclosed late today that French Laval will agree after a meeting of the ministry next Monday to the British demand for French armed forces to be withdrawn from Libya.

This answer was indicated after an audience with the British ambassador, who was originally represented by a reliable source as refusing to coöperate.

French authorities said Russia and Turkey, foreign minister, who talked to Premier Laval today, told the French government head Turkey should adopt such a sanction.

The two powers will seek to learn if the United States would support a world-wide embargo against Italy.

RESULT OF THE ELECTIONS

Beginning with the Martlettes, the Liberals were swept into power in the Districts of Edmonton, Lethbridge and Mackenzie King will lead a government with a majority over all. This will preclude any chances of the financial interest of the hands of the money men, is gone.

It has been common knowledge that for some time an effort had been on foot to form a Eastern party in Montreal, Toronto and other big centres to form a national government. This would of necessity have to do the bidding of an invisible financial government.

The Tribune signs the view, expressed on all sides, that it would be in the best interests of Canada that whatever party was elected should have a working majority.

With the new government having majority over all, it would seem that the chance of the C.P.R. taking over the National railroad, and thus the further concentration of power into the hands of the money men, is gone.

There are great problems to be dealt with by the new government, among them the unemployment situation, the re-establishment of international trade, which will permit the country to sell more of its surplus products; the debt situation—federal, provincial, municipal and individual. All these problems must be faced with a due and solutions found if the country is to survive.

We join in the Rt. Hon. R. B. Bennett, who has often spoken of the trying time ever experienced by the Canadian people, when in a short speech over the radio on Monday night he wished the new government success.

Along the Trail

By J. B. YULE

THE "PEPPLES" ELECTION

By the time this little reflection reaches readers of The Tribune the voters will have expressed their choice through ballot box, and they wish to represent them during the life of the next federal parliament. We have a few hours to get over the great depression made by Mr. Pepples, and he is not going to prophesy the outcome. Sir John Macdonald once said that the most uncertain things in the world was an election and a horse race.

So far as our own riding is concerned the campaign has been as common as expressed it, "pepples," and we understand that the same condition largely obtains on the outside.

No man I have seen think people have not been thinking. It may be that they have been thinking more than electors did in previous elections, because there was no kind of excitement—parades and all the rest of it. To those of us who have lived through many elections the most uncertain things in the world was an election and a horse race.

These gains continued the uninterrupted upturn in employment which has been in evidence since the first of the year. Moreover, recent reports indicate that the new arrivals are coming in for their share of the gains Ontario has benefited most, while Quebec City, Toronto and Vancouver are the ones which are showing power can be relied on to register correspondingly larger "shocks" in these cases.

All the time from political speeches to railroad overhauls, harvest activity continues to dominate the current picture. Not with its influence stop in a few weeks. The wheat crop is practically the only nation with an exportable wheat surplus together with the fact that the market shows that a large proportion of her population is going to be better off this fall.

Already Canada's farm income is at the highest point in four years and since about two-thirds of the total farm income in the third and fourth quarters of the year the best is still ahead.

Sales both over-the-boundary and within the Province are great deal to do with the present situation and in the small attendance at meetings, political or otherwise, in the various cities, the speeches of the various leaders, in which they outline the policies of their respective parties, with the result that most of the people attending meetings in their communities to hear the issues discussed.

So far as the election in the Peace River region has been concerned has been the quietest ever held in the north country, so far as outward appearance goes.

Whether this means a certain indifference to the election cannot be determined until the votes are cast. People are still voting, but appear apathetic largely to the radio.

If this conclusion is right, the old days of "hush-hush" election day are over, and will be decided in future not through going to hear speeches but in the quietness of the home, where the various leaders weigh carefully without being influenced by the atmosphere of a political meeting, and make their own decisions on the various issues.

The conqueror of the air has brought a new era which has and will have a far-reaching effect along the lines suggested.

The world it moves.

CELOPHANE CHEAPER

Montreal, Sept. 30.—Confident that retail sales in Canada will show further improvement in the fall and winter, Canadian Industries Limited announced a further reduction in the price of Celophane cellulose film, widely used in packing and as a clothing medium. This sixth successive price reduction since manufacture began in Canada in 1932 is made with the belief that the retail sales generally are on the upturn and that a considerably broader use of the product will result from the reduction.

Our Social and Economic Life

By H. O. Hommy

(Continued from last week)

"Art, glory, freedom fail, but nature stands."—Lord Byron.

When one takes hold of the beautiful autumn color of the trees and the meadow shows a few resistant leaves, one begins to feel a certain feeling of change, a man writes about human society.

How successful we seem to be in spending our time, but probably abounds. We will not take time to look at it; we shut ourselves away from it and wander about in an aimless chase for pleasure we never can find.

Instead of finding pleasure in nature, content and happiness in our daily work, we are too busy to notice what is around us.

As to commerce, it cannot be denied that it is a necessary factor in our daily lives, but it can become an all-absorbing factor in the mind of man, with no sacrifice too great to be thrown on the altar of gain.

Common reason says no. While common sense says yes.

When I passed the opinion that we were too much absorbed in the golden state and commerce, I did not mean the man to be more important than the universe.

Shall this life continue in another world, or shall it return to its original source?

Common reason says no. While common sense says yes.

As to commerce, it cannot be denied that it is a necessary factor in human life, but it can become an all-absorbing factor in the mind of man, with no sacrifice too great to be thrown on the altar of gain.

Common reason says no. While common sense says yes.

WAPITI NEWS

WAPITI Oct. 11.—Chester Wagner was a visitor at Ishberg's home Tuesday.

Mr. and Mrs. Troyer, Mr., have left for their homes after visiting their son during the past month.

Mr. Whaling was a weekend visitor at the home of Mrs. and Mrs. Elford.

Mr. and Mrs. H. Riggs and Miss E. Hoskins spent Sunday at the Mercur home.

Mr. and Mrs. E. Watt were visitors ever here on Wednesday.

Mr. and Mrs. Troyer are visiting at Bear Lake this week.

Ugh! the weather has changed at last, and with a vengeance. We thought it was over, but it isn't to last; and maybe the present bad weather won't be permanent, either. Indians are predicting an open winter—well, here goes!

The river is so low that at the present time the ferries can only get half way across. This is certainly a great change from the spring. By the looks of the huge barn Bill Mervin is building on his place, I think Bill is planning on any sudden move. It is by far the best barn in the community and it is certainly a good advertisement for his building capabilities.

PIPESTONE CREEK

(Received by Friday's Mail)

PIPESTONE CREEK, Oct. 7.—Everyone who can get away will be here to watch the big outfit go west next week. The grader is now in readiness for the caterpillar and grader, officially timed to reach here Monday morning. October 13, and will be delighted when we see the outfit work, like the man in the following yarn, which shows you how to sell a pony to a man from such heaven!

Pipestone Creek, August:

Buyer: "He doesn't look like an old horse."

Seller: "How about work—is he a good worker?"

Seller: "You'll be delighted when you see him work."

The horse had changed hands and the money was paid over.

Pipestone Creek, October:

Buyer: "Thought you said that was a good work."

Seller: "Certainly not. I said when you see him work you'll be delighted—and you certainly will."

Sunday visitors to Pipestone Creek included Cap and Mrs. Campbell and grandson, Mr. and Mrs. Hodgson and Chester Wagner.

PIPESTONE CREEK, Oct. 9.—Mr. J. Pickard of Coopersburg, Wilson & Horn paid a business visit to Pipestone Creek today, and while here inspected the new building in progress.

Henry McClellough, who has recently completed a chicken house for the Wapiti mine, has charge of the construction of the new building. With the addition to barn room already completed this summer, it is felt that there will now be sufficient accommodation for all the miners. Invesitgation at this point on most nights during the winter.

Mossoom telegraph reports that Henry Joachim is en route and will be here by October 20 with 17 head of pack horses. Bill Hargrave has the contract to pack a ton of Robin Hood flour to the Porcupine. This famous flour sells for eight dollars in the store, but can be had for six dollars at Pipestone Creek for less than at any other point in the Peace River country.

Their many friends will regret to see John and Mrs. Isabey and family leaving the Wapiti area. Mr. Isabey is amongst father's farmers. Mr. Isabey is amongst those who have done a great deal towards opening up the settlement south of the Wapiti and the rugged mountains of the South Wapiti school, on which board he acted as chairman. Mr. and Mrs. Isabey, after a toning operation, are doing all right.

Miss Winnie Treadgold arrived from the hospital last Friday and is coming along fine.

Miss Mary Rose is also slowly improving from an infected leg.

Little Sylvia Howes and Alan Howes are back from a toning operation. They are doing all right.

Mrs. Tommy Fairbank spent the week in Flying shot item, her mother and sister, Mrs. Fox and Miss Helen Fox.

(Received by Friday's Mail)

VALLEYVIEW NEWS

VALLEYVIEW, Oct. 7.—We're threshing! Whoever thought of threshing this many bags? It took me long to finish it. To the west, the wheat is coming in.

However, those who went in for wheat on the strength of the crop are in a poor pie. Potato and other vegetable yields are low.

The wheat easily has a renewal or the problem of hauling the crop to High Prairie.

The abundance of wild berries is a common sight. The low yields of cultivated crops, and women folk have done their utmost to pick and can for the winter, and many have a well-stocked larder.

Such a lovely fall we are having. Have you tried to forget your daily work? The sun is still warm enough to be alive these days is a treat? No more mosquitoes, no more no-seems; roads dry everywhere. If you are a plowman, you are in a happy state, according to Schopenhauser. If the editor of "Along the Trail" would mention the heat, the mowing, the mud, the dust and the falling of many-hued leaves; goose honking on their way south, the cold, the chills, the tallow on before the winter; a squirrel sprinting nervously between his feeding-silos and wild turkeys running about the twenty-two bullet hole left spring a gaping wound across his back, a wound which took two weeks to heal. We appreciate "Along the Trail."

With the boys out harvesting due不久, we look forward to livelier times and hope the Community Club will summon its enthusiasm of last spring and get going. Also that our choir will continue the good work of last winter.

Happiness depends, as nature shows, on exterior things than most suppose—William Cowper.

Meter alcohol is being made from corn in South Africa.

Canadian Utilities Ltd.

Take pleasure in Announcing the Opening of their New Show Room and Office in Grande Prairie

SATURDAY, OCTOBER 26TH, 1935

You are cordially invited to visit our Show Room, and inspect our display of Electric Refrigerators and Ranges, also other Appliances.

Any of these Appliances can be purchased on our

"Easy Payment Plan"

See our samples of Commercial Lighting Fixtures and Window Lighting Units.

ARRANGEMENTS ARE BEING MADE TO SERVE TEA AT THE STORE IN THE AFTERNOON ON THE OPENING DAY.

Commencing Oct. 26, all Grande Prairie accounts will be payable at our new office

BEATTY HILL ST. PLANT

Beatty Electrical Appliances Effective in War On Dirt

Hardships inevitably do not mark on the appearance and health of human beings. The women of pioneer days looked old and felt old at thirty-five years of age. Many of these women who first came to this country was not sixty years but thirty-five. Death amongst young pioneer women was a common occurrence, rather than unusual to a man to marry two or three times. Hardships took a costly toll.

Washing clothes was a real hardship for pioneer women. During the year they spent as much as forty-five hours in washing clothes, scrubbing, rinsing, wringing, and starching work in all kinds of weather.

The killing drudgery of the wash tub is just as bad today. It is not right that mother should sacrifice her health and strength and money to wash clothes, when she can save a few dollars. A Beatty suds

an electric washer, vacuum cleaner, or floor cleaner that does the tedium, stooping, keep the hands from looking hard and old, save hours of time and the use of stronger soap and chemicals. Most women prefer to wash these fine garments rather than entrust them to strangers.

An electrical appliance such as an electric washer, vacuum cleaner, or floor cleaner that does the tedium, stooping, keep the hands from looking hard and old, save hours of time and the use of the best investments in the home.

It is not right that mother should sacrifice her health and strength and money to wash clothes, when she can save a few dollars. A Beatty suds

house smeared on linen strips is used as an antiseptic in Scotland for cuts and burns and many believe in its efficacy.

Canada provides the bulk of the cheese, oats, motor tires, tubes, nylons, silk stockings and rayon imported into Trinidad, British West Indies.

Town of Grande Prairie

Notice is hereby given that, under the provisions of the Tax Recovery Act, 1929, the following described lands will be offered for sale by public auction, at the Town Hall, Grande Prairie, on Wednesday, October 30th, 1935, at 10 o'clock in the forenoon:

ILLUSTRATED NEWS OF THE WEEK -

BRITISH TROOPS TAKE PART IN EXTENSIVE MOVEMENTS

With smoke pouring over the countryside, troops of the Aldershot command took part in a realistic battle in Hampshire recently. The above picture shows some of the soldiers advancing through a heavy smoke screen.

NEW GOVERNOR GENERAL AT FAREWELL BANQUET

Lord Tweedsmuir, the new Governor-General of Canada, was there, the guest of honor of Royal Engineers at a London hotel, a farewell luncheon shortly before sailing for the Dominion to take over his duties.

In the top picture Lord Tweedsmuir, centre, is talking to Admiral Sir W. Goodenough, chairman of the society, while the Hon. L. E. G. D. G. United States Ambassador, sits on the left in the picture. Below, Lord Tweedsmuir sits next to the Earl of Athlone, Queen Mary's brother.

CANADIAN CARDINAL SAILS FOR ROME

His Eminence, Cardinal Villeneuve, centre, is seen here on board the Empress of Britain as he sailed for Rome to visit the Pope. On the left of the picture is Hon. Maurice Dupre, while on the right is Major Grignot of Quebec.

"GENERAL" CHOWDER
Who the Tigers expected to win the fourth game of the world's series. A real veteran of the show, he is a crafty pitcher with excellent control. When men are on bases the old fashioned form and throws a deadly ball. The Tigers won the series.

"Don't look toward Austria too long. They might call it intervention." —Simplonius, Munich.

THE FIRST WEATHERCOCK OF FRANCE

Those Canadians who have visited Paris and gazed up at the old town weathercock which stands on the spire of Notre Dame will recall the familiar "beetle" shape. The weathercock was dismantled recently by the French authorities on the advice of the architect for repairs and various relics (coins and other souvenirs) were found inside it. This was the first time the weather cock had been touched since the spire was built in 1888.

SASKATCHEWAN PUMPKINS GROW TO AMAZING SIZES

There are reports of amazing pumpkins out in Saskatchewan this year. Record moisture did not mean big wheat crops for most farmers but it provided extra water for the fields and some pumpkins are reported to have grown to 40 and 50 pounds each. Some as heavy as sixty pounds meant pies for all the family for a fortnight. The little girl in the picture is Marjorie Harkness, daughter of E. J. Harkness, Carrot River farmer, and she is sitting on a pumpkin 50 inches in circumference and weighing more than 40 pounds.

Here and There

Reorganization of the whole Alberta relief system will be undertaken by the new Social Credit government at the earliest possible date, Premier Aberhart stated.

Ninety per cent of the 1935 graduates of the faculty of applied sciences and engineering of the University of Toronto have received employment, Dean C. H. Miller announced.

Vice-Admiral Sir Humphrey Thomas Walwyn has been appointed governor of Newfoundland in succession to Admiral Sir David Beatty Anderson, whose term of office expires next spring.

Col. H. C. Osborne, honorary director of the Dominion Drama Festival, announced that Alan Wade, noted British stage personality, will be regional adjudicator during competitions in the 1936 festival.

Charlotte Arden, the Vancouver girl who won the five-mile swim at the Canadian National Exhibition at Toronto said on her return home she may try to swim the English Channel next year.

As a gesture toward wiping out ammunitions from the last War, the South Australian government, on the eve of a provincial centenary, decided to restore the German names of four towns.

For Sale: One island, in excellent condition. The island is small, an island on its hands, and is looking for a prospective buyer. An independent city will build a bridge from the mainland to the island, if the price is right.

Sir Malcolm Campbell has purchased Headley Grove, a fine Georgian residence near Epsom, but Lady Campbell is awaiting the statement that he is not going to sell, despite his claim as a country gentleman. "He will never give up his motor-racing interests," she says.

A new plastic "glass" has nothing in common with ordinary glass except its transparency. It is probably a cellulose derivative like cellophane.

Paper linings have been invented for the ground coffee to prevent the ground coffee falling through and facilitate its removal.

British excavations in the Shetland Islands reveal remains of buildings of Vikings in the tenth century.

WILL ALBERTA JOIN STRONG TREND TO CUT CAR LICENSES?

Over a hundred in the Alberta Motor Association had advocated reduction of car licensees in this prov-

ince. The organization is prepared to continue its fight against high fees.

Some inspiration is given by the report that in eight states across the border registration fees for cars have been reduced. This means a substantial saving to motorists.

Last year motor vehicle owners in Canada paid to the provincial governments a total of \$10,000,000, which was an increase of more than \$3,500,000 over the year before. The amount covered registration fees and gasoline taxes, and it is expected that 1935 will show a further increase. Such figures are sufficient to intensify the campaign for lower registration fees.

In Connecticut, Georgia, Tennessee and Utah, the registration fees on both passenger cars and trucks have been decreased. In North Carolina and Missouri reductions were made on passenger cars alone and Oregon and Washington cut the rates on trucks.

In the whole union the only states which increased fees were Maine and South Dakota.

In Georgia the registration fee has been reduced from 50 cents to 25 cents, due to a flat rate of \$3 per car. Utah has adopted a flat fee of \$5 and Vermont's weight taxes have been reduced \$2 to \$6 per vehicle.

A. M. A. WILL ISSUE "BRIEF" DEMANDING BETTER HIGHWAYS

Action is being taken by the Alberta Motor Association to bring to the attention of the new provincial government immediately the need of improvement in the state of the highways.

At the request of branches of the organization, A. B. Mackay, president of the association, has drawn up a brief which will "open the eyes" of the new administration to conditions which prevailed during the past summer.

Specific action has been directed to the highway between Calgary and Banff, and to the fact that Americans avoid the route from Western Canada to keep away from Alberta owing to the bad condition of roads here.

Undoubtedly this adverse publicity had something to do with the large volume of tourist traffic from this province in a year when a heavy volume was anticipated, and would tend to be duplicated in view of the fact that the Canadian Travel Bureau had expended a large advertising appropriation to attract American tourists to visit Canada during the past season.

All these facts will be impressed upon the government by Mr. Mackay's brief, which will be a forceful presentation on behalf of the motor organization to the provincial legislature.

Canadian highways form a subject of special appeal to the new members of the house, judging by the interest some have already shown. That makes it a good time for the association that when the next session of the legislature is held strong representation of the automobile and the interest of better roads will have been impressed upon the legislators.

Gleanings of Interest To the Women Folks

By THE GLEANER

Miss Verna Grant spent a few days last week at Spruce River.

Mrs. D. C. Austin entertained a few of her friends to tea on Wednesday afternoon.

Mrs. S. Hunter of Beausejour spent a couple of days with Mrs. Jack Fitzpatrick this week.

The Baptist Missionary Circle met at the home of Mrs. Dunfield on Wednesday afternoon.

Miss Garrett will take a nursing class for the Junior C. W. L. at the Academy on Friday.

Miss Lorraine Fitzpatrick has been the guest of Mr. and Mrs. Robert of North Kildonan for the past week.

Mr. and Mrs. Earl Remnick and family, of Three Creeks, Alberta, were the guests of Mr. and Mrs. Grant last week.

Quite a few Grande Prairieites enjoyed a very delightful evening by the Handicraft Guild of the Junior C. W. L. on Saturday afternoon at the home of Mrs. Isaac.

The C. W. L. meeting circle met at Mrs. F. Hinkman's in Tuesday afternoon. The next meeting will be Thursday evening October 24, at the home of Mrs. M. P. Brown.

Last week Mr. and Mrs. Baxter and family moved into their new home on Fourth Avenue North, Mr. and Mrs. Van der Velde having sold the house just vacated by the Baxters.

TO HOLD HALLOWEEN TEA

The Junior C. W. L. will hold a Halloween tea at the Academy on Saturday, October 26, when there will be a fortune-telling with in attendance.

REPEATED CONCERT

St. Joseph's pupils repeated their concert of the previous week of scenes from the opera "Turandot" at school on Thursday evening of last week in honor of the Very Rev'd Fr. Costello.

SUNDAY SCHOOL TEA NEXT SATURDAY

A Sunday school tea, given by the teachers of the Sunday school, will be held in the basement of St. Paul's United Church on Saturday, October 19, between the hours of 3 p.m. and 6 p.m. The proceeds will go to the Christmas tree fund. Everybody welcome.

HEAR FATHER PROVINCIAL

Thirty-four members of the Junior C. W. L. met at the Academy on Friday evening. After the usual business session, the Very Rev'd Fr. Costello, Redemptorist Provincial, spoke most interestingly and inspiringly on different aspects of Catholic action, particularly the work of the exemplary life. Father MacIntyre then spoke a few words before he and the Father Provincial left.

Father Costello and his secretary, Father Cane, who have been here for a week, left on Friday's train.

UNITED CHURCH SUNDAY SCHOOL RALLY

On Sunday, October 13, St. Paul's United Church Sunday School, Grande Prairie, held their Rally Day service. The service was conducted by Rev. St. R. Scott of Clairmont. The classes sat in the centre pews and the parents
